

Athabasca University School of Business

Bachelor of Management (4 year General) / AACI Completion Program

This program plan outlines the educational path for graduates of the Athabasca University School of Business Bachelor of Management program in order to complete the educational requirements for the Appraisal Institute of Canada's Accredited Appraiser Canadian Institute (AACI) designation as a part of their studies. Having met all of the educational requirements for the AACI designation, the graduate could immediately be hired as a candidate appraiser, gain the necessary work experience, and be a fully accredited commercial appraiser in less than one year from graduation. Beyond this core education, AIC requires completion of the Standards Seminar and the Applied Experience program.

Note that students will need an official evaluation for the Athabasca University programs and that each assessment is handled on an individual basis. If a student has completed any other education, enrolled in Athabasca's post-diploma programs, or wishes to select a major, these plans may not be applicable. All interested students should contact an Athabasca student advisor regarding this transfer credit agreement.
